

About IQAC:

The Sanjivani College of Engineering, Kopergaon has been accredited by the National Assessment and Accreditation Council (NAAC) as 'A' grade Institute in the year 2017. Pursuant to the direction of National Assessment and Accreditation Council (NAAC), Bangalore for performance evaluation, assessment and quality upgradation the Institute has established an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality assurance mechanism since 23/07/2016. Accordingly, IQAC has been setup in the Institute with the Principal as its Chairman. As quality enhancement is a continuous process, the IQAC will become an integral part of the Institute systems and work towards realisation of its goals of quality enhancement. The IQAC will develop a consistent system for improving the overall performance of the Institute. It will channelize all efforts and measures of the institute for quality enhancement during the post-accreditation phase.

Objectives of IQAC:

The primary objectives of IQAC are:

- To develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institute.
- To promote measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices.

Guidelines of IQAC:

These guidelines will facilitate the institution in the creation and operation of the Internal Quality Assurance Cell (IQAC). The work of the IQAC is the first step towards internalization and institutionalization of quality enhancement initiatives. Its success depends upon the sense of belongingness and participation it can inculcate in all the constituents of the institution. It will not be yet another hierarchical structure or a record-keeping exercise in the institution. It will be a facilitative and participative voluntary system/unit/organ of the institution. It has the potential to become a vehicle for ushering in quality enhancement by working out planned interventionist strategies to remove deficiencies and enhance quality like the "Quality Circles" in industries.
